+ Offloading

Key features

Just-in-time email backup

With this functionality, Microsoft 365 can forward all incoming and outgoing email traffic to the contentACCESS SMTP server in near real-time. Ensure all your communications are captured as they occur with contentACCESS!

Three-minute setup

Fast and straightforward configuration through four simple steps gets your backup established and protecting your critical data. Skip the hassle and enjoy your newfound security.

Streamlined UI

Take advantage of the new contentACCESS modern administration UI. Combined with the new automatized aspects, take efficiency to new heights. Eliminate unnecessary steps and put your security first.

One-click restore

contentACCESS backup for Microsoft 365 offers a quick, one-click restore option. No more stress or delays! Get your business back on track and recapture all your files and communications instantly, without lengthy setups and processes.

Backup+

With contentACCESS, every end user gains direct access to their backed-up data through our client tools. This empowers users to effortlessly browse, search, or even restore their data independently, eliminating the need for administrator intervention.

Benefits

Cost savings

Securely stored

All information placed in our backup is fully encrypted, with the certificate being generated by your own instance of the system and fully unique to you. Keep complete control over your data, and leverage our system to ensure it remains fully secure at all times

Multiple copies / data redundance

Disasterproof your storage! Even in the case of hardware failure or malicious action, ensure continued survival of and access to data stored using our solution. We offer the possibility of using our replication feature to maintain intact redundant copies of critical data

Instant capture

With our email backup just-in-time process, ensure that all your information is captured instantly. If an incident requires a rollback, you suffer minimal interruption to your day and can immediately pick up where you left behind

Compliance

In line with regulation

Make sure your data handling is in line with the main regulations – whether that be DORA, NIS2, GDPR or more. With contentACCESS' tools and features, keeping your data in compliance is easier than ever

Best practices

Establishing your backup in line with industry best practices and standards, including the 3-2-1 backup strategy, made fast and easy. Ensure that your data backups adhere to the industry standard, quickly and efficiently

Business continuity

Keep your business in operation no matter what; with contentACCESS Backup for Microsoft 365, we can help you overcome obstacles and keep rolling on. Ensure that your data remains available to you, your partners and your clients whenever they need it

Productivity

Simple end-user access

Remove bottlenecks to your workflows. With contentACCESS' Backup+ feature, you can allow easy end-user access to backed up files. Improve your workplace efficiency and guarantee constant access to files – anytime, from any place, through our Online Web Access as well as Mobile applications

Easy to administrate

Take advantage of our unified structure to easily administer all data sources through one interface. Set organization-wide rules and policies, manage user access, and oversee user actions through the audit trail

One-click Restore

Remove delays and get your organization back on track after incidents with a fast one-click restore process, simplifying and speeding back your rollback and getting you back to work faster

Flexible configuration options

Set up your archive and backup system in:

Cloud: leverage the possibility of using contentACCESS in the form of SaaS, built on the basis of a monthly fee, including storage and access to all available TECH-ARROW services

On-premise: A one-time license purchase with installation on your infrastructure, with full control over your storage

Who we are

TECH-ARROW was founded with the goal to create a unified and modern archive and backup solution meeting all future needs of the rapidly changing world of data security and retention. We have been continuously growing over the last ten years to meet our vision of technological evolution in the world of secure data archiving and intelligent backups. During this time, we have also worked on expanding our wide range of products to best represent the needs of our clients and reflect developments in a rapidly evolving market.

Operating globally, with over a thousand current and former clients representing a variety of industries, TECH-ARROW stands ready and waiting to help your organization tackle your data migration, archiving or data backup needs.
